SKILLS

- **Frameworks & Libraries:** HTML, CSS, Tailwind CSS, React, Node.js, Express
- **Languages:** PHP, JavaScript, Java, C++
- **Tools & Platforms:** MySQL, Git, GitHub
- **Soft Skills:** Analytical Thinking, Adaptability, Active Listening, Detail-Oriented.
- **Core CS Fundamentals:** OOP Concepts, DBMS, SQL

WORK EXPERIENCE

Freelance Full Stack Developer – Ayodhya Estate (Client Project) | [GitHub](#) | [Live](#)

Jan 2026 – Feb 2026

- **Built** a professional real estate platform for Ayodhya Estates using the MERN stack. Designed a user-friendly interface that allows customers to browse property listings like "Panchi Vihar" with fast-loading images and smooth navigation.
- **Developed** an automated inquiry form that instantly sends customers leads to the business email. Integrated a WhatsApp chat feature to make it easier for potential buyers to connect with the sales team, directly increasing user engagement.
- **Optimized** the website to show up on Google searches for keywords like "Plots in Ayodhya". Managed the entire deployment process on Render and Netlify, ensuring the site is secure (SSL), mobile-friendly.

Freelance Project:- | [VR-tech](#) | [Link](#)

Mar 2025 – Apr 2025

- Designed and developed a responsive business website with clean layouts and user-friendly navigation for desktop, tablet, and mobile devices.
 - Implemented interactive frontend features including automatic product slider, smooth scrolling effects, and animated visual transitions.
 - Enhanced website speed and compatibility through optimized HTML structure, efficient styling, and streamlined JavaScript execution.
- Tech stack: HTML, CSS, JavaScript, Responsive Web Design

PROJECTS

Tech-Sure Solution: (Client) | [Live](#)

May 2026

- **Architected** a scalable web application using laravel framework with MVC architecture, secure authentication, and optimized routing for efficient request handling.
 - **Engineered** Backend functionalities using Eloquent ORM, database migration, and session management to maintain reliable data processing and application stability.
 - **Applied** Responsive UI integration, deployment optimization, and structures code organization to ensure maintainability, performance, and seamless user experience.
- Tech Stack:** Java, Laravel, PHP, MySQL, Blade, Bootstrap, MVC Architecture.

TRAINING

Data Structures and Algorithms in C++ | [Lovely Professional University](#)

Sep 2024 – Nov 2025

- **Developed** a custom C++ data structure library implementing Vectors, Hash Maps, and AVL Trees without reliance on the Standard Template Library (STL) to master low-level memory manipulation.
- **Utilized** raw pointers and dynamic memory allocation to build efficient Stacks and Queues, addressing specific memory constraint scenarios.
- **Conducted rigorous Big-O analysis** to benchmark sorting algorithms, achieving a performance boost by implementing Quicksort and Merge Sort for large datasets.

CERTIFICATES

- Java with GUI – CSE pathshala | [Link](#) Aug 2025
- Data Structures and Algorithms – iamNeo – Lovely Professional University | [Link](#) May 2025
- Java Programming – iamNeo – Lovely Professional University | [Link](#) May 2025
- Cloud Computing – Nptel | [Link](#) Apr 2025

ACHIEVEMENTS

- Achieved a competitive LeetCode rating of **1102**, showcasing the ability to implement complex algorithms under strict time limits in weekly contests. Nov 2025
- Strengthened data structure proficiency by solving **100+ challenges** across LeetCode, GeeksforGeeks, and HackerRank, focusing on code efficiency and logic optimization. Oct 2025
- Expanded engineering versatility by developing a logic-driven **Java Pacman engine** and a responsive, high-uptime **Personal Portfolio Website**. Aug 2025
