Mobile: +91-8005560721

Skills

- **Frameworks & Libraries**: HTML, CSS, Tailwind CSS, React, Node.js, Express
- **Languages**: PHP, JavaScript, Java, C++, Python
- **Tools & Platforms**: MySQL, Git, GitHub
- **Soft Skills**: Mentorship, Disciplined-focused, Solution-oriented, Versatility, Growth-Mindset
- **Core CS Fundamentals**: OOP Concepts, DBMS, SQL

Projects

VR Tech Solution: "vrtechsolution.in" Revenue Generation *Apr 2025*

- **Designed** and developed a modern, responsive business website with a clean layout and intuitive navigation to improve customer engagement and accessibility across desktop, tablet, and mobile platforms.
- **Implemented** interactive UI components such as automatic product carousels, smooth scrolling animations, and visual transitions to enhance product presentation and overall user experience.
- **Optimized** performance through structured markup, efficient styling, and script handling, reducing load time and ensuring consistent rendering across different browsers and screen sizes.
- **Technologies**: HTML, CSS, JavaScript, Responsive Web Design

AI-Symptom-Checker-Chat *Mar 2025*

- **Developed** a browser-based AI symptom-checker chatbot interface allowing users to input health-related queries and receive conversational responses through a structured chat layout.
- **Integrated** configurable API connectivity to support backend AI or diagnostic services, enabling scalable interaction logic and easy extensibility for different AI providers.
- **Enhanced** usability by refining page layout, improving script initialization, and optimizing frontend responsiveness to ensure smooth real-time message rendering and interaction flow.
- **Technologies**: HTML, CSS, JavaScript, REST API Integration

Crafting-Sign- Wedding Card E-Commerce Website *Dec 2025*

- **Built** a full-stack e-commerce web application for customized acrylic signage and event card services, supporting dynamic product display, inquiry handling, and scalable user interaction workflows.
- **Developed** responsive and visually modern UI components using React, while designing backend APIs with Node.js and Express to handle requests, validation, and business logic.
- **Managed** deployment and scalability by hosting frontend and backend on separate platforms, integrating media optimization tools, and ensuring efficient data handling through database connectivity.
- **Implemented** secure form handling and optimized database queries to ensure reliable user submissions, faster data retrieval, and improved overall system stability.
- **Technologies**: MongoDB, Express.js, React.js, Node.js, Netlify, DigitalOcean, Cloudinary

Certificates

- Cloud Computing | **NPTEL** — Apr 2025
- Java with GUI | **CSE Pathshala** — Aug 2025
- Introduction to Hardware and Operating System | **IBM** — Sep 2024
- The Bits and Bytes of Computer Networking | **Google** — Aug 2023

Achievements

- Achieved a competitive LeetCode rating of **1972**, showcasing the ability to implement complex algorithms under strict time limits in weekly contests. — Nov 2025
- Strengthened data structure proficiency by solving **100+ challenges** across LeetCode, GeeksforGeeks, and HackerRank, focusing on code efficiency and logic optimization. — Oct 2025

Education

Lovely Professional University — Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.07*** — *Aug 2023 - present*

Vedanta Gurukul Public School — Sikar, Rajasthan
Intermediate; ***Percentage: 77%*** — *Apr 2021 - Mar 2022*

Pearl Public School — Sikar, Rajasthan
Matriculation; ***Percentage: 69.50%*** — *Apr 2019 - Mar 2020*
